

Oleh Polishchuk

Strong Middle Front-End developer

Profile

Front End Engineer with 5+ years of experience building and maintaining responsive web apps in the e-commerce and SASS industry. Proficient in HTML, CSS, and JavaScript, modern libraries, and frameworks. Full Stack Web Developer (Java + JS) in the past.

Employment History

Lead Front-End Developer at Titanium Labs Inc, 2 yrs 3 mo

March 2018 — Present

Titanium Labs Inc is an IT outsourcing company. As the Lead Front-End Developer I'm currently operating the Core Front-End team of 4 people.

As a developer:

- Planning, architecting, and maintaining project features.
- Doing code and architectural review, refactoring, creating new features, and API Integration, writing specs.
- Creating unit and e2e tests using Jest and Puppeteer.
- Conducting A/B testing to identify UI improvements
- Doing front-end interviews (hired 3 ppl.)

My achievements:

- Setup daily meetings, knowledge sharing sessions, defined single code standard, linter, playground, etc.

The stack of technologies:

- FE: ES9 (React.js), HTML5 (BEM, OOCSS), CSS3 (Flexbox), Jest and Puppeteer, WebPack, Gulp.
- BE: Scala
- DB: MongoDB.
- DevOps: AWS (Lambda, API Gateway, S3/EFS, CloudFront, RDS, etc.)

Full Stack Developer at Mev, LLC, 7 mos

August 2017 — February 2018

- Building features using Java 8 (Dropwizard) and TypeScript (Angular 2+)
- Designing DB migration scripts on both sides: Java and MongoDB.
- Doing code review, refactoring, and bug fixing.
- Moved project to Docker to speed up the onboarding & development process.

The stack of technologies:

- FE: TypeScript (Angular 2+), HTML5 (Bootstrap), CSS3 (Flexbox)
- BE: Java (Dropwizard)
- DB: PostgreSQL, MongoDB.
- DevOps: Docker
